Profile Summary

Product & Program Management professional with 7+ years leading cross-functional execution across fintech and telecom platforms. Skilled in SDLC/PDLC delivery, API-driven systems, and AI-powered automation initiatives including LLM workflows and intelligent process automation. Proven track record improving rollout predictability, operational efficiency, and data-driven decision making across global programs.

Work Experience

PRODUCT MANAGEMENT INTERN | AC FUTURE, CALIFORNIA | APRIL 2026 – PRESENT

- Define and track delivery milestones for HMI and Mobile UX workstreams, coordinating across design, engineering, and manufacturing partners.
- Translate smart trailer platform technical specifications into structured product requirements and user journey maps for MVP execution.
- Lead GEO initiative to improve brand discoverability across AI search platforms through structured testing and perception gap analysis.

PRODUCT STRATEGY & OPERATIONS INTERN | A&C TECH, CALIFORNIA | OCTOBER 2025 – APRIL 2026

- Architected and deployed AI-powered email automation workflows using n8n and OpenAI GPT-4o, reducing manual processing time by ~60% across business operations.
- Built an AI-driven voice automation system integrating call routing, transcription, and workflow automation to enhance business communication efficiency.
- Led business requirement gathering and compliance workflows across KYC/KYB/AML onboarding processes - reviewing customer documentation, ensuring regulatory adherence, and maintaining audit-ready records for fintech clients.
- Supported GTM strategy and vendor evaluation for a blockchain-enabled fintech initiative, assessing 5+ proposals to support \$200K+ procurement decisions

PRODUCT LEAD | PAYTM - INDIA'S LEADING FINTECH PLATFORM, 350M+ USERS | APRIL 2023 – AUGUST 2024

- Led digital rollouts across 10+ MEA/Asia/Africa regions on a regulated platforms handling ~18M monthly transactions - ensuring full compliance adherence, risk controls, and zero regulatory gaps throughout program delivery.
- Drove rollout predictability by instituting structured readiness tracking across Engineering, QA, CRM, and Operations, improving execution accuracy by ~18% and saving an estimated 2–3 weeks per rollout cycle.
- Streamlined UAT prioritization frameworks and conducted A/B testing across UPI transaction flows, including error messaging and payment retry optimization- accelerating critical issue resolution by 1-2 business days.
- Developed executive-ready KPI dashboards and GTM performance scorecards adopted by senior leadership across 3+ business units - driving planning, prioritization, and go-to-market execution decisions.

SENIOR PRODUCT ANALYST | PAYTM - INDIA'S LEADING FINTECH PLATFORM, 350M+ USERS | JULY 2019 – APRIL 2023

- Led launch-readiness for Paytm's Cloud IVR system during COVID - enabling telecom partners to reach 10K+ customers daily, scaling to 300K+ monthly automated touchpoints.
- Managed coordination with 10+ external vendor and partner teams, ensuring 95%+ on-time delivery alignment across critical program milestones.
- Partnered with engineering teams to define technical requirements, manage API dependencies, and ensure system readiness across IVR platform deployments.

- Operationalized standardized GTM readiness checklists across 4 functions - Sales Ops, Engineering, QA, and Client Ops - shortening preparation cycles by up to 20%, saving ~3–4 weeks per program.
- Maintained structured compliance and readiness frameworks across 5+ concurrent programs on RBI-regulated fintech platform, ensuring zero compliance gaps and audit-ready documentation across all delivery cycles.

PRODUCT ANALYST | PAYTM - INDIA'S LEADING FINTECH PLATFORM, 350M+ USERS | JULY 2017 – JULY 2019

- Coordinated end-to-end execution of 7-phase Vodafone Sakhi program rollout, aligning 5 cross-functional teams across 23 regions and 280K+ target end users.
- Managed 70+ UAT test cases, dependencies, and risk closure timelines - ensuring zero critical go-live delays across all 7 rollout phases.
- Created test cases, SOPs, and methods of procedure to support smoother operational handovers and facilitate cross-team communication, improving issue resolution speed and accuracy during rollout cycles.

Education

M.S. BUSINESS ANALYTICS — California State Polytechnic University, Pomona
MASTER OF APPLIED MANAGEMENT — AKTU, India
BACHELOR OF APPLIED MANAGEMENT — AKTU, India

Skills

BUSINESS & PROGRAM OPERATIONS: Business Analysis • Project Coordination • Process Improvement • PRDs/SOPs • Cross-Functional Coordination • A/B Testing • UAT Coordination • Risk & Issue Tracking • SDLC/PDLC • KYC/KYB/AML • MVP Definition • UX/UI Coordination

TOOLS: SQL • Python • R • Tableau • Salesforce (CRM) • Confluence • Visio • APIs • Cloud IVR • Office 365 • JIRA • Figma • Workflow Automation (n8n + GPT-4o)

Projects

AI CRYPTO MARKET INTELLIGENCE PLATFORM (PERSONAL PROJECT, JAN-2026)

- Built a real-time crypto analytics platform combining ML predictions, sentiment analysis, and technical indicators to support data-driven trading decisions.
- Designed a trend-reversal detection model (24–48 hr horizon), reducing false trading signals by ~95% and improving signal reliability.
- Developed an interactive dashboard (Streamlit + Plotly) enabling users to visualize market trends and make faster buy/sell decisions

AI-POWERED CAREER INSIGHTS DASHBOARD (PERSONAL PROJECT, NOV-2025)

- Built an LLM-powered job intelligence platform that converts natural-language queries into structured job searches (role, location, skills).
- Integrated 3+ APIs for real-time job aggregation, AI-based relevance scoring, and automated summarization, delivering personalized results in <15 seconds.
- Reduced manual job search effort by ~70% by enabling faster discovery and decision-making for users.

THE COMPARATIVE INDUSTRY ANALYSIS OF IT AND R&D SPENDING AND ITS IMPACT ON FIRM PROFITABILITY - AWARDED AT 2ND PLACE IN ANNUAL MSBA CONFERENCE (ACADEMIC 2024-2025)

- Analyzed 2017–2021 cross-industry financial data to evaluate the profitability impact of IT vs R&D investment and identified R&D as a stronger ROI driver through statistical modeling; findings recognized at MSBA Conference.

Certifications
